TEMPORARY INTERSECTION CLOSURE DUINEFONTEIN ROAD AND GOVAN MBEKI ROAD

The City of Cape Town advises road users of a temporary intersection closure at Duinefontein Road and Govan Mbeki Road to facilitate the delivery and installation of pre-cast concrete beams as part of the Duinefontein Bridge construction.

The pre-cast beams are approximately 40 metres in length and weigh around 40 tonnes each. Heavy-duty cranes will be used to lift and accurately position the beams at the intersection.

What to expect

- Work is scheduled to commence on Sunday, 10 May 2026, between 08:00 and 18:00, weather permitting. Intermittent closures will occur for short periods at a time, between 10 - 13 May 2026.
- The Duinefontein Road and Govan Mbeki Road intersection will be closed while cranes lift and position the beams.
- Traffic will not be able to pass through the Duinefontein Road and Govan Mbeki Road intersection during delivery and installation operations.
- Traffic officials and signage will guide road users along alternative routes.
- Dates may change due to unforeseen circumstances.

Access to all properties will remain open.
