

PUBLIC NOTICE

NIGHT WORK ON AZ BERMAN DRIVE MITCHELLS PLAIN

The City of Cape Town will be conducting night-time construction work along AZ Berman Drive, between Nduli Street and Wespoort Drive, as part of ongoing upgrades to the area's transport infrastructure. These improvements are aimed at enhancing the road network and preparing the corridor for expanded MyCiTi services, resulting in better public transport and travel conditions for residents and commuters.

Night work is planned from 14 September 2026 to 14 December 2026. The works will be carried out from Monday to Saturday, between 19:00 to 05:00. Some construction-related noise may occur during these hours.

What to expect

- Temporary traffic flow changes along sections of AZ Berman Drive.
- Traffic signage and traffic management personnel will guide road users safely through the construction area. Residential properties, businesses and public facilities with approved access will remain open throughout the construction period.

The City appreciates the community's patience and cooperation while this work is underway.
