CONSTRUCTION NOTICE

TEMPORARY INTERSECTION CLOSURE DUINEFONTEIN ROAD, MANENBERG

The City of Cape Town is continuing with transport infrastructure upgrades along Duinefontein and Govan Mbeki Road. To accommodate construction activities, a temporary partial intersection closure will be in effect at the Duinefontein and Govan Mbeki Road intersection from 5 – 13 November 2026.

What road users can expect:

- Road users travelling from Manenberg along Duinefontein Road towards Govan Mbeki Road will not be able to travel southward across the intersection. Motorists will have the option of turning left to Gugulethu and right to Lansdowne, respectively.
- Access to Duinefontein Road from the Govan Mbeki Road intersection will also be temporarily restricted, if motorists are travelling from Jakes Gerwel, in a northerly direction towards Manenberg.
- Advance warning signage will be installed along both Duinefontein Road and Govan Mbeki Road to notify road users of the closure and provide guidance on alternative routes.
- Additional security personnel and law enforcement officers will be deployed throughout the closure period to assist with traffic management and help ensure the safety of all road users.

The City encourages all road users to proceed with caution, adhere to temporary road signs and reduced speed limits, and allow additional travel time where necessary.
